CONDITION OF THE MARKETS

Bearish Tendency in Wheat, Which the "Bulls" Were Unable to Counteract.

Corn Opens Fairly Steady, but the Tendency Was Toward Lower Prices-Oats Weak and Lower-Provisions Strong and Higher.

MONEY, BONDS AND STOCKS.

A Quiet Opening at New York, Followed by Strength and Activity. NEW YORK, July 23 .- Money on call was easy at 101 per cent.

Prime mercantile paper, 4@6 per cent. Sterling exchange was dull and heavy, with actual business at \$4.86} for sixty-day bills, and

\$4.88 for demand. The total sales of stocks to-day were 202,138 shares, including the following: Delaware, Lackswanns & Western, 21,850; Erie, 8,810; Louisville & Nashville, 5,165; Northwestern, 4,460; Northern Pacific preferred, 4,230; Reading, 39,618; Richmond & West Point, 11,370; St. Paul, 18,100; Union Pacific, 16,995; Western

Union, 5,285. The stock market was quiet to-day, being dull in the forencon, with very little character, but more active and stronger later in the day. There was very little business of a character to affect values outside of the crop reports, which had a marked influence in intensifying the prevalling conservatively bullish feeling on the street, and the "bears" lacked the usual aid in the shape of pessimistic telegrams from the West. The traders were disinclined, in view of the prevailing sentiment, to hammer the list, and the forenoon's business was dul uninteresting in the extreme, the "buils" received encouragement from a new crop of buyers in the afternoon, and prices were advanced slowly but steadily, without any set-back, until the lose. Very little stock, as far as could be see come out on the rise, and the buying was principally from commission-houses. The excellent condition of the anthracite trade made the coa stocks conspicuous in the market to-day, and notwithstanding the Jersey Central-Lehigh Valley matter, easily led the entire market. New England, Richmond & West Point and Union Pacific were all prominent and strong, but the special feature of the day was Oregon Short-line atock, which, after opening up a fraction, advanced over 2 per cent, the marked improvement in its earnings, especially the net, having a stimulating effect upon its price. The opening was quiet and steady and the early dealings developed a firm sone, during the prevalence of which everything advanced small fractions, but these gains were afterwards wiped out, the market becoming very dull and lifeless. New buyers appeared in the afternoon, however, and the market pre-

were advanced slowly, the improvement ceasing only with the close of businesss. The close was active and strong at about the best prices of the day. The closing prices show advances throughout the list, though, except in Oregon Short-line, which gained 24 per cent., the improvement is confined to fractions only.

The railroad bond market was fairly active, the sales of all issues aggregating \$1,517,000, out of which Texas Pacific seconds furnished \$194,-000 and the Fort Worth & Denver firsts \$152,-000. The market was somewhat irregular but

sented a more animated appearance immediately, and Reading, New England, Union Pa-

cific and Lackawanna taking the lead, prices

generally strong; closing prices, however, show irregular changes from last previous sales, with Government bonds were dull and steady.

to be bearish in wheat to-day, and no amount of "bull" news or figures had any affect more than to keep prices about steady. While very large on track, 82; No. 2 Northern, July and August, 79c; on track, 78½ \$80c. Flour steady. receipts were expected at St. Louis they feil far below the estimate. Where there was much receipts were expected at St. Louis they feil far below the estimate. Where there was much talk and some show for slight increase in the visible supply for the week there came the de-

crease of 738,000 bushels. It was after the figures were posted that August wheat sold back to 89c. August sold early at 80 to 80 c, and back, shortly before the close, to 79 to. September sold early at 79 to, and then off to with August. There was a race between a heavy operator and the crowd to sell wheat just before the close, which caused a sharp decline of a few fractions. August closed at

79ic, or ic lower than on Saturday; September, 79ic. It was with corn as with wheat. Prices were held fairly steady early, what weakness was noticeable being credited to the large receipts, which were twenty-five cars more than the estimate. Later the estimate of 485 cars for Tuesday caused free selling. There was also a disposition to pound the market on the part of half a dozen local houses, and it was not difficult, with these receipts, to bring prices down. July declined from 47c to 46jc; August sold at 46%, up to 46%, down to 46%, up to 46%, and down at the close to 46%. September touched 45%, closing at 45%. Oats opened easy and ruled weak all the way through. The estimated receipts for to-morrow were more liberal, and placed at 175 cars. In addition to this feature the demand from July "shorts," which was so marked last Saturday, was not present to such an extent to-day.

This month opened about steady, but later sold off ic, to 30%. A moderate call existed for August and September, which were to te lower, while long futures were dull, with a slight demand for May at a corresponding decline. A decidedly strong tone pervaded the provision market, and prices averaged higher. The last sales showed a net gain over Saturday of .15c on short ribe, .11 c on lard, and 7 c on pork. Trading was larger, but mainly of a local character, "shorts" being the principal buyers. Holders of product evinced less disposition to sell and forced buyers to bid up to secure it. English houses bought lard, and a few outside buying orders were received for short ribs. Opening sales were the lowest, and the closing

INDIANAPOLIS MARKETS.

The Outlook for Business Improving -- Collec-

INDIANAPOLIS, July 23. Merchants in nearly all departments speak of trade as improving and report collections easier. The feeling gains ground that the fall trade is to be satisfactory in its volume. In prices to-day there were but few changes. The hide market has brightened up a little; prices are ruling steadier and indications point to a more general interest on the part of tanners, whose stocks east are beginning to run low, which necessitates a freer buying. Grocers had a good trade to-day. The traveling salesmen on Saturday brought in good orders, which, with those of today, gave business a lively appearance. Lemons are in better supply. The same is true of oranges, and prices are a little easier. The provision market was hardly as strong to last week, but as little is doing bere, except in a jobbing way, no changes are noted. The produce markets are active. On increasing arrivals of eggs prices are weakening somewhat. Poultry rules steady and firm. Young chickens are not coming in so freely as usual, and prices, it will be noticed, are 2 to 3 cents per pound higher at the present time than at the corresponding period last year. Choice butter meets with ready sale. Apples of good quality are in abundant supply, and selling at \$2 per barrel. Potatoes are in heavy supply, and some sold to-day at \$1.50 per barrel. Berries of all kinds are scarce, and prices rule strong; in fact, it is difficult to quote them, so

prices depending wholly on the quantity on hand. Arrivals of peaches continue large. A considerable per cent of the fruit is small and half ripened. In the other markets there is lit-tle that is new to note. The wool market East is more active, but West prices are unchanged, and the tone of the market dull.

The market opened to-day rather sluggishly. Bidding on 'Change lacked snap, unless it be for wheat, which is in good demand. Corn rules quiet, and oats dull. Track bids to-day ranged
